SUMMARY

Looking for a challenging position in an organization where I can solve complex engineering challenges, learn new skills, expand my knowledge, and leverage my learning and abilities towards achieving organizational goals.

EDUCATION

VNR VJIET 2020-2024
BTECH: CSE - Data Science CGPA: 8.55/10

Sri Chaitanya Junior College 2018-2020
Maths, Physics, Chemistry Score: 880/1000

St. Andrews School 2008-2018
CBSE CGPA: 9.3/10

EXPERIENCE

Tata Consultancy Services.....
Systems Engineer June 2024 - Nov 2025, Hyd , TG

- Optimized a critical Power BI reporting environment by re-architecting the data ingestion strategy, offloading heavy DAX computations to a Databricks backend to reduce report reload times by 70% and eliminate system overloads.
- Engineered a robust self-monitoring data pipeline framework that proactively identifies points of failure, automates error detection, and creates secure backups, ensuring high data integrity and preventing data corruption.
- Designed an end-to-end data workflow from the ground up, transforming raw Salesforce data into strategic business assets for advanced analytics and reporting.
- Spearheaded a knowledge management initiative by developing a comprehensive knowledge base with detailed technical documentation and video tutorials, slashing new engineer ramp-up time by 90% (from 7 weeks to 4 days)

Atomstate Technologies Private Limited.....
Machine Learning Engineer Jun 2023 - Sept 2023, Hyd, TG

- Developed and deployed a core sentiment analysis engine using Natural Language Processing (NLP) from concept to completion ahead of schedule, enabling the automated analysis of unstructured text data.
- Played a key role in a high-stakes state election analysis by transforming raw data into a predictive strategic map, providing data-driven recommendations that directly shaped campaign strategy and resource allocation.
- Played an instrumental role in a high-stakes state election analysis, transforming raw data into a predictive strategic map to provide data-driven recommendations that directly shaped campaign strategy.

Zummit Infolabs.....
Junior Data Scientist Nov 2022 - Mar 2023, WFH

- Applied a sophisticated NLP toolkit to navigate ambiguous, unstructured data, successfully creating an analytical model that transformed raw text into actionable business insights.

SKILLS

Languages	Python, SQL, Java, C++, C
------------------	---------------------------

Concepts DSA, OOPs

Data Science Data Analysis,
NLP, Machine
Learning

Cloud Technologies	Azure Cloud, Azure Databricks
---------------------------	----------------------------------

Data Processing	ETL Pipelining, Data Modeling, Data Warehouse
------------------------	---

Visualization	Power BI, Data Visualization
----------------------	------------------------------

Developer Tools	GitHub, VS Code, Jupyter Notebook
-----------------	-----------------------------------

ACHIEVEMENTS

- **Amazon ML Summer School 2023**
Amazon
- **Flipkart Grid 4.0**
Flipkart
- **Hacktober Hackathon 2022**
CBIT

CERTIFICATIONS

- **Geo data Processing using Python**
ISRO
- **Cloud Computing**
NPTEL
- **Data Science Tools**
IBM
- **Problem Solving**
HackerRank

STRENGTHS

- Problem-Solving
- Critical Thinking
- Time Management
- Self Motivated

LANGUAGES

- English
- Telugu
- Hindi
